WORK EXPERIENCE

- **Website for the Ministry of Industry and Commerce**

  I participated in a team at AXELINK Maroc during one of my internships, where we developed a website for the ministry using React & .NET

- **Intelligent assistant app**

  I developed, as part of an innovation project, a virtual assistant using Spring AI capable of tasks such as scheduling tasks in Google Calendar, managing task lists in Google Tasks, sending emails via Gmail, or providing information based on user queries

PROJECTS AND CERTIFICATES

- **DevOps on AWS: Code, Build, and Test | Couesera**
- **Spring MVC, Spring Boot and Rest Controllers | Coursera**
- **Getting started with Flutter Development | Coursera**
- **Full Stack App using React and Express | Coursera**
- **Custom E-Commerce Site in React + JavaScript Basics | Udemy**
